RESTORATION GUIDELINES

Thank you for choosing Trinity Restoration for your project. As we're sure you know restoration work is a specialized process that very few companies even attempt these days. We here at Trinity Restoration love classic vehicles and will be very proud to work on your restoration.

Since 1987 we have been Tulsa's most honest and straight-forward restoration shop. Unlike other shops we restore and build vehicles on a "COST-PLUS" BASIS. You will be given receipts on every penny spent and know where every minute went. And, most importantly we have separate facilities and dedicated technicians to ensure the timely completion of your project.

This document was created to set expectations for the restoration process. Restorations are...

- NOT priced in advance and billed as actually worked by the clock hour PLUS materials
 - Ballpark restoration / custom estimates are available for budget purposes ONLY
- Booked and worked on limited basis as capacity permits – FLEXIBILITY IS REQUIRED
- Billed pay-as-you-go at \$65 per hour actually worked by the clock (1 Hour MINIMUM)
 - PLUS ALL MATERIALS (receipt copies will be provided) COST PLUS 30%
- PAID \$2,500 PLUS parts (plus 30%), if any, DOWN at drop off to get project started
 - Remaining work is billed at the end of each payroll period, due immediately
 - Customers are REQUIRED to keep \$2,500 balance in account. Applied to final bill.
- Can be worked and paid on a budget or in phases, if pre-arranged
- Slow to finish and can take many weeks or even several months to complete
 - Please don't drive us nuts with update calls / or just show up DAILY
 - However, feel free to arrange visits to review / take pictures WEEKLY
- Storage (\$35 per day) will NOT be charged while project is actively worked and paid
- Complicated and may require additional time, materials and cost
 - Updates and photos (Trinity may use photos for promotion) provided as needed
- Unique and therefore require a special case-by-case, limited warranty on work
- Best billed via credit card on file (2% premium removed from non-credit card transactions)
- Preferred to be handled via E-MAIL for updates, photos, billing, etc.
- Subject to change as needed during the process

These basics are a great starting point but are by no means all inclusive. The restoration process can be long and complicated. There are often many things that can not be expected. Trinity will work with you to manage this process properly and ensure a positive experience and result.

We love to do restoration work, but it requires us to be very honest and up front with you. We greatly appreciate your business, but please be understanding with us and we will return the favor. Please let us know if you have any questions. Thank you very much, Trinity Staff.

I have read, understand and agree to Trinity's Restoration Guidelines for my project.
